

NOVEMBER 2016

CITY OF RITTMAN AGGREGATED SERVICES

ELECTRIC AGGREGATION

The City of Rittman has contracted with First Energy Solutions for electric aggregation. **Residents are guaranteed to save 6% off Ohio Edison's current rate** and 4% off for small commercial accounts. The current rate is a *variable* which can fluctuate monthly. The existing contract is valid through April of 2018. If you have any questions or want to join, please call First Energy Solutions at 1-866-636-3749. First Energy Solutions maintains all account information. Rittman residences are automatically enrolled in this program and it is up to the customer to do their own apples-to-apples comparison and opt out if desired. There is a \$25.00 cancellation fee to leave the program for another before the contract expires.

GAS AGGREGATION

All residences and small businesses in the Rittman natural gas aggregation program supplied by Constellation Energy will have a **fixed rate of \$4.38 per mcf (.4380 per ccf)** through July of 2017. There is no early cancellation fee and you may enroll at any time.

If you are currently a member of the Rittman aggregation you will automatically roll into the new contract price and will only need to "opt out" if you wish to use another supplier.

If you are not enrolled, you may "opt in" at any time by calling Constellation at 1-844-860-4767. Be aware that if you are in a contract with another gas supplier you may be subject to an early cancellation penalty fee.

Please be aware that the City of Rittman strives to provide its citizens with the best price available for your heating needs. However, the City does not "guarantee" the lowest cost. Other options may become available from time to time and you may receive offers in the mail from different suppliers. It is ultimately up to the consumer to decide what natural gas supplier best suits your needs. The choice is yours.

The State of Ohio PUCO Apples to Apples website is a great tool for price comparison
